

MALIK HANNAN

Software Engineer I

+92 333-136-8190 · hannanmalik228@gmail.com · [LinkedIn](#) · [Portfolio](#)

PROFESSIONAL SUMMARY

Full Stack Software Engineer with 2.5+ years of experience building scalable web applications using React.js, Next.js, TypeScript, Node.js, Django, and FastAPI. Experienced in developing POS systems, AI-powered applications, and CMS platforms across frontend, backend, and database layers. Skilled in API development, system integration, performance optimization, and technologies including PostgreSQL, MongoDB, Supabase, OpenAI, Pinecone, Plaid, and Sentry.

WORK EXPERIENCE

Panthers Technology

Nov 2025 - Present

Software Engineer I

- Enhanced and maintained a POS (Point of Sale) system, leading frontend development to deliver a responsive and user-friendly experience.
- Improved application performance and Lighthouse scores by 25–30 points through code splitting, lazy loading, asset optimization, and frontend performance tuning.
- Contributed to backend development using Django, building and optimizing APIs for seamless frontend-backend integration.
- Integrated Plaid for secure financial data connectivity and implemented Sentry for real-time error tracking, monitoring, and faster issue resolution.
- Built and deployed a Progressive Web App (PWA), enhancing accessibility, offline functionality, and cross-platform user engagement.

Geeks Of Kolachi

April 2025 - Sep 2025

Associate Software Engineer

- Applied a real-time conversational AI system using OpenAI to enhance interactive learning and communication capabilities for an autonomous baby.
- Integrated Pinecone as the vector database for efficient semantic search and vector-based data storage, optimizing advanced data processing and retrieval for seamless real-time interaction.
- Addressed and resolved real-time challenges within a project developed by AI tools such as Lovable, ensuring smooth operation and continuous improvement.

Tafsol Technologies

Dec 2024 - April 2025

Associate Software Engineer

- Designed, improved, and preserved multiple responsive web applications, including user-facing and admin dashboards, ensuring high performance across all devices and modern browsers.
- Built customized CMS solutions tailored to specific client requirements, enabling efficient and intuitive content management.
- Collaborated closely with backend developers to integrate RESTful APIs, ensuring seamless end-to-end functionality.
- Utilized React.js and Next.js to develop modular, reusable UI components, significantly improving development speed and maintainability.
- enforced consistent and modern user interfaces using CSS Modules and Tailwind CSS, ensuring a cohesive look and feel across the platform.

Frontend Engineer

- Designed and sustained multiple responsive, high-performance web applications, ensuring cross-browser and cross-device compatibility.
 - Optimized application performance, achieving a 20% reduction in page load times through code refactoring, lazy loading, and bundling strategies.
 - Utilized React.js and Next.js to build modular, reusable components, significantly improving development speed and maintainability.
 - Ensured consistent, visually appealing UI implementation using Material UI and Chakra UI, aligned with design specifications and accessibility standards.
 - Actively contributed to code reviews and participated in Agile ceremonies including daily stand-ups, sprint planning, and retrospectives.
-

EDUCATION**Bachelor's in Software Engineering**

Karachi University (UBIT)

Feb-2022 - Jan-2026

PROFESSIONAL SKILLS**Programming Languages:** Javascript, TypeScript, Python.**Frontend Technologies:** React.Js, Next.Js, HTML5, CSS3, Micro Frontend.**Backend Technologies:** Node.Js, Django, FastAPI, Supabase, System Design**Databases:** MongoDB, PostgreSQL, Pinecone(vector database)**AI Tools:** Ollama, n8n, Open AI**UI/UX Design:** Figma, Adobe XD**Communication Tools:** Slack, Microsoft Teams, Zoom**Project Management tools:** Asana, Trello, Jira, Jibble**Others Tools & Technologies:** Git, GitHub, Sentry
